Summary & Recommendation

Garden City Park School offers an excellent educational foundation for young children, with strong academic performance, dedicated faculty, and positive community feedback. The school serves grades PK-6 with approximately 295 students and maintains a favorable student-teacher ratio. The surrounding neighborhood offers multiple single-family home options under \$1,250,000, making it an attractive choice for families prioritizing quality education. The school's 'A' rating from Niche.com and consistent positive reviews from parents make it a competitive option among the five schools being considered. For buyers whose primary concern is elementary school quality for their three young children, Garden City Park School represents a strong choice with good value in the local real estate market.
